Afghanistan: HUMANITARIAN DATA LITERACY - TRAINING NEEDS ASSESSMENT

Summary Findings Infographic: RESPONDENTS OVERVIEW

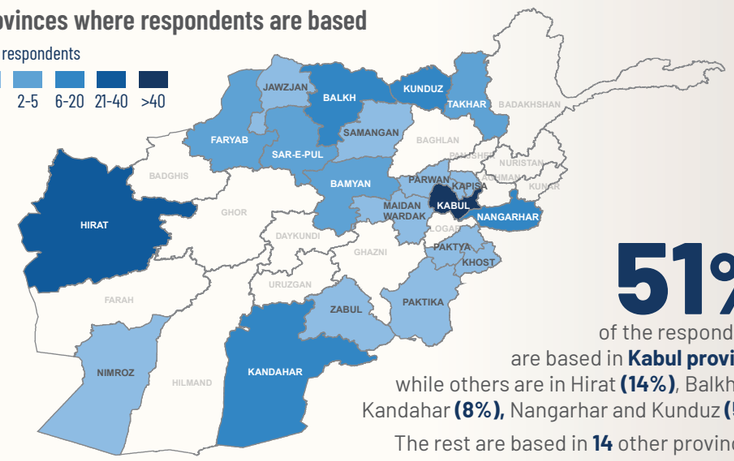
The following highlights provide a summary of the training needs assessment (TNA) survey conducted in April - May 2024, which aimed to provide an accurate and timely snapshot of Data Literacy capacities and gaps among iMMAP stakeholders in Afghanistan (e.g. national and local organizations, including clusters, UN agencies, INGOs, NGOs and CSOs). The feedback gathered during the survey was analyzed to generate insights into their capabilities, challenges, and specific areas where additional training and capacity-building are required. This information will help design targeted training programs that enhance the data management and analytical skills of humanitarian partners, ultimately improving the effectiveness and efficiency of humanitarian response efforts.

243
Survey Respondents

242 out of the 243 respondents (99.6%)
are involved in or contributing to humanitarian action in Afghanistan

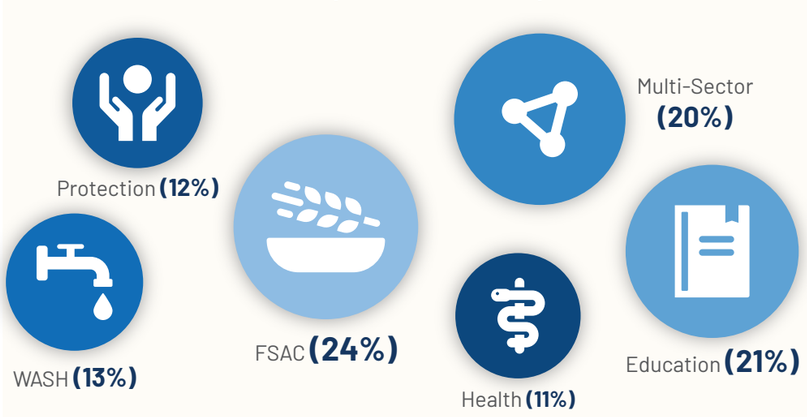
84%
of the respondents are Male

Provinces where respondents are based



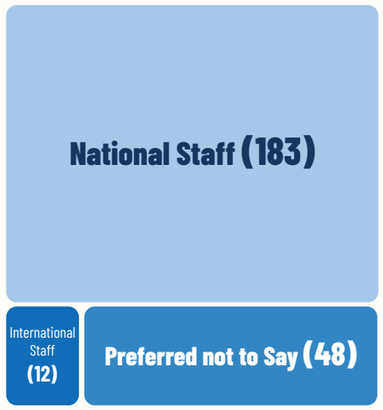
51%
of the respondents are based in **Kabul province,** while others are in Hirat **(14%)**, Balkh and Kandahar **(8%),** Nangarhar and Kunduz **(5%)**.
The rest are based in **14** other provinces.

Participation in Sectors (Top 6)



Organization Description

Employment Status



In the provinces, apart from Kabul where most respondents operate **(148** respondents**)**, the other top 4 provinces are Hirat **(97)**, Nangarhar **(89)**, Kandahar **(88)**, and Balkh **(85)**
(some respondents are operating in two or more provinces)
