

Humanitarian Information Management for Natural Hazard and Emergency Response in Afghanistan (HIM-NHER)

Afghanistan is one of the world's most complex humanitarian emergencies

500,000 people expected to be displaced due to conflict and natural disasters in 2020

5.8 million people planned to be reached with **COVID-19** related assistance in 2020

Over **14 million people** projected to be in **crisis and emergency** levels of food insecurity in 2020

Sources: HNO and HRP 2020

iMMAP Afghanistan

Funded by USAID, iMMAP has been actively operating in Afghanistan since 2010.

iMMAP delivers information management (IM) products and services to key partners in humanitarian response and Disaster Risk Reduction (DRR), including humanitarian clusters, USAID implementing partners, OCHA, the Afghan Government, and civil society.

We work towards ensuring that data consistency and standardization is integrated into all systems for a more efficient and cost-effective emergency response by all humanitarian actors.

Years of presence in Afghanistan: **Since 2010**

Donor: **USAID**

Current project:
Humanitarian Information Management for Natural Hazard and Emergency Response in Afghanistan

Project budget: **\$3,063,000**

Number of organizations iMMAP currently supports:
91 (ReportHub) ANDMA (ANHDC)

Where we work

Services

IM Services: iMAP provides ad-hoc IM support to all the humanitarian clusters for specialized tasks.

ReportHub: ReportHub is an online reporting platform that addresses the gap in reporting operational data across organizations by streamlining the information flow between clusters, working groups, partners, and the Humanitarian Country Team in support of the Humanitarian Response Plan.

The Agency Coordinating Body for Afghan Relief and Development (ACBAR) also uses ReportHub to gain an overview of its 70 member organizations that are operating under the Afghanistan Humanitarian Fund and reporting through ReportHub.

COVID-19: Within the framework of ongoing support, iMAP is assisting the clusters and cluster members to monitor the COVID-19 response through ReportHub and providing our partners with remote IM assistance.

ReportHub services to beneficiaries and active organizations by year

ANDMA: iMAP provides close support to the Afghanistan National Disaster Management Authority (ANDMA) through capacity building to enhance ANDMA's DRR activities, mapping, and IM. iMAP is also providing surge capacity support to ANDMA by seconding 13 national IM experts.

ANHDC: The Afghanistan Natural Hazard Data Center (ANHDC) is a geospatial platform developed by iMAP for ANDMA that provides critical information to line ministries and aid organizations for DRR, planning, and emergency response.
