In 2023, iMMAP Inc. supported 120 partners in Afghanistan through the platform. These partners were supported in 7 clusters and 2 working groups, with a total of 4,999 data accesses (data downloads and dashboard consultations), making ReportHub the first reporting tool used by major active clusters in the country, as endorsed by the HCT.

ReportHub is an online reporting platform developed by iMMAP Inc. to address the gap in reporting programme and operational data across organizations by streamlining the information flow between cluster partners. The platform enables effective monitoring of the Humanitarian Response Plan and strengthens intersectoral coordination to support the Humanitarian Country Team (HCT).

iMMAP Inc. is an international nonprofit organization that provides information management services to humanitarian and development organizations, enabling partners to make informed decisions that ultimately provide high-quality targeted assistance to the world’s most vulnerable populations.

In 2023, 22.19 million individuals were reached with various services by organizations reported in ReportHub.

The map above highlights the number of people reached by aid partners in Afghanistan at the provincial level.
