Information Management for Emergency Response in Afghanistan (IMERa II)

Afghanistan is one of the world’s most complex humanitarian emergencies.

500,000 people expected to be displaced due to conflict and natural disasters in 2020.

7.1 million people reached with life-saving assistance in 2019.

Over 14 million people projected to be in crisis and emergency levels of food insecurity in 2020.

***IMMIP Afghanistan***

Funded by the USAID Bureau for Humanitarian Assistance (BHA), IMMIP has been actively operating in Afghanistan since 2010.

IMMIP delivers information management (IM) products and services to key partners in humanitarian response and Disaster Risk Reduction (DRR), including humanitarian clusters, USAID BHA implementing partners, OCHA, the Afghan Government, and civil society.

We work towards ensuring that data consistency and standardization is integrated into all systems for a more efficient and cost-effective emergency response by all humanitarian actors.

**Who we are**

- **53 Number of staff**
  - **16 IMOs**
  - **37 Non-IMOs**

**Where we work**

- **2 Country Office**
- **14 ANDMA**
- **21 UN**
- **2 UN**

**Years of presence in Afghanistan: **Since 2010**

**Donor:** USAID

**Current project:** Information Management for Emergency Response in Afghanistan (IMERa II)

**Project budget:** $3,392,000

**Number of organizations IMMIP currently supports:** 30 (ASDC), 83 (ReportHub)

Better Data, Better Decisions, Better Outcomes
Services

**IM Services:** iMMAP provides ad-hoc IM support to all the humanitarian clusters for specialized tasks from our country office. As well as deployments to UNHCR and WHO through the dedicated Standby Partnership Program.

**ASDC:** The Afghanistan Spatial Data Center (ASDC) is a geospatial platform that provides critical information to line ministries and aid organizations for DRR, planning, and emergency response. Users can access updated interactive dashboards and maps.

**ANDMA:** iMMAP provides close support to the Afghanistan National Disaster Management Authority (ANDMA) through capacity building to enhance ANDMA’s DRR activities, mapping, and IM. iMMAP is also providing surge capacity support to ANDMA by seconding 14 national information experts.

**Unique ASDC products delivered by year**

**ReportHub:** ReportHub is an online reporting platform that addresses the gap in reporting operational data across organizations by streamlining the information flow between clusters, working groups, partners, and the Humanitarian Country Team in support of the Humanitarian Response Plan.

**Number of ReportHub organizations by cluster / working group affiliation**

- **Education in Emergency Working Group:** 6
- **Emergency Shelter and Non-Food Items:** 32
- **Food Security and Agriculture Cluster:** 32
- **Health:** 21
- **Cash and Voucher Working Group:** 40
- **Nutrition:** 9
- **Protection:** 38
- **Water, Sanitation, and Hygiene:** 39

**COVID-19:** Despite COVID-19’s impact on operations, iMMAP remains committed to its mission in Afghanistan. Within the framework of ongoing support, iMMAP is assisting the clusters and cluster members to monitor the COVID-19 response through ReportHub and providing our partners with remote IM assistance.

**Capacity Building:** Through specialized training, workshops, and knowledge sharing activities tailored to the needs of our partners, we empower humanitarian stakeholders and national capacities to reach a professional understanding of the principles and best practices of IM in humanitarian and DRR contexts.
